

TRACTOR MOUNTED AERATOR TDA1200/1600

A CUT ABOVE PERFECTION

BARONESS

TDA1200/1600 SPECIFICATIONS

The Baroness TDA1200/1600 tractor mounted Aerator is another quality machine from Kubota Baroness which combines sturdiness, efficiency and simplicity to give you the absolute best possible finish on golf greens, sports pitches and playing fields.

EASY DEPTH ADJUSTMENT

The working depth can be quickly adjusted without using any tools, thus allowing easy on-site adjustment.

FULL REAR ROLLER AND SOIL RELIEVER FINGER PLATES

A full-width rear roller, roller scraper and finger plates are all supplied as standard. The rear roller and roller scraper post aeration surface presentation, and the soil reliever finger plates, minimize turf lifting.

MULTIPLE TINE OPTIONS

The standard tine holders will accommodate tines from 8mm to 19mm. Optional multi-tine carrier blocks can be fitted to produce very tight aeration patterns.

	TDA1200	TDA1600
